

Remote access to  
all your Call Systems

**INTERCALL**<sup>®</sup>  
NURSECALL SYSTEMS

# intercallcloud

**The Intercall Cloud service uses the power of the web to allow secure remote access to all your Call Systems**

It doesn't matter if you've one site or one hundred the Intercall cloud gathers the data from all your call systems with a single point of access.

Using encryption and secure passwords, supervisors can analyse the performance of individual sites or the whole group remotely.

A local device silently collects nursecall activity on each site which is instantly reported to the cloud. Once data is collected graphical reports highlight the performance of individual sites.

## Features include:

- ⊕ Single point of access to all your systems
- ⊕ In built web reports review performance
- ⊕ Summary reports can be automatically emailed to individuals
- ⊕ Graphical chart reporting
- ⊕ Secure Cloud technology with encryption & secure passwords
- ⊕ Compatible to retro fit with existing systems
